

## At Maurer's Textile Rental Services Inc.,

At Maurer's Textile Rental Services, Inc., we don't just strive for excellence in our products and services; we're also dedicated to leading the way in environmental responsibility. We're thrilled to introduce our latest initiative; Equipment & Green Services (EGS), a new program that highlights our commitment to our environment and sustainability. Our goal is simple: to continually find ways to lessen our impact on the environment and promote eco-friendly practices.

---

### Equipment & Green Services (EGS)

Maurer's is taking significant steps toward a greener, more sustainable future for everyone. EGS includes a range of eco-friendly practices and services, from using sustainable materials to phosphate-free wash chemicals and energy-efficient processes. It also includes essential equipment like linen bags, bag stands, and dispensers—crucial elements in our shared journey towards sustainability.

---

### Equipment for Environmental Sustainability

Our commitment to environmental sustainability extends beyond just words. We integrate various eco-friendly equipment and practices into our operations to minimize our ecological footprint. Here's a glimpse of the equipment and initiatives we've implemented:

- **Cloth/Nylon bags:** Reusable bags reduce plastic waste and promote sustainability.
- **Customer Web Access:** Convenient online access reduces paper usage and promotes a paperless environment.
- **Diesel Exhaust Fluid:** Utilizing eco-friendly fluids helps reduce harmful emissions.
- **Eco-Friendly Products:** We prioritize the use of products that are biodegradable and environmentally friendly.
- **Eco-Friendly Wash Formulas:** Our wash formulas are designed to minimize environmental impact without compromising effectiveness.
- **Efficiency Dryers:** Energy-efficient dryers reduce energy consumption and greenhouse gas emissions.
- **E-mailed Invoices and Statements:** Digital invoices and statements reduce paper waste and promote electronic record-keeping.
- **Hand-Helds:** Efficient handheld devices streamline operations while minimizing paper usage.
- **Hanger Reclaim:** Reclaiming and reusing hangers reduce waste.
- **Heat Reclaim:** Recycling heat energy reduces energy consumption and promotes efficiency.

- **Heavy Soil Wash:** Specialized equipment for heavy soil washing reduces water and detergent usage.
- **LED Lighting:** Energy-efficient LED lighting reduces electricity usage and promotes sustainability.
- **Lint Collection:** Effective lint collection systems reduce air pollution and promote a cleaner environment.
- **Mat Repair - in-house:** In-house repair minimizes waste and extends the lifespan of mats, reducing the need for replacements.
- **Paperless Office:** Transitioning to a paperless office reduces paper consumption and waste.
- **Scan Repair App:** Digital scanning and repair processes minimize paper usage and streamline operations.
- **Wastewater - Discharge Monitor:** Monitoring and managing wastewater discharge ensure compliance with environmental regulations.
- **Air Quality Improvements:** Initiatives to improve indoor air quality promote a healthier environment for employees and customers.
- **RF Chips - Uniform/Mats/Rounds/Mops:** RFID technology enables efficient tracking and management of inventory, reducing waste and promoting sustainability.
- **Pallet Recycling:** Recycling pallets reduces wood waste and promotes resource conservation.

These initiatives represent our ongoing commitment to environmental sustainability. By incorporating these practices into our operations, we strive to make a positive impact on the planet while delivering excellent service to our customers.

---

### **Enhancements and Streamlined Billing**

In addition to these enhancements, EGS will incorporate existing charges such as the Service Charge, Statement Fee, and Automated Payments, making the billing process more efficient. The Service Charge covers essential services, the Statement Fee covers handles administrative costs, and Automated Payment ensures secure and efficient transaction.

---

### **Forging Partnerships and Driving Progress**

EGS is more than just about simplifying invoices; it's about building partnerships and making progress towards sustainability. By participating in this initiative, you're actively contributing to a cleaner, healthier environment. This means not only enjoying better material handling but also knowing that our processes are effectively fighting harmful microbes while reducing our environmental impact.

---

### **Gratitude and Support**

We want to express our deepest gratitude for choosing to partner with Maurer's. Your ongoing support not only helps protect our planet's precious natural resources but also drives the development of innovative programs to enhance your business's value.

---

### **Contact Information**

If you have any questions or concerns about these updates, please feel free to contact our dedicated Customer Service Representatives at 517-321-2811. Together, we can make meaningful changes and ensure a sustainable legacy for future generations

---

**Thank you for your continued partnership and commitment towards a more sustainable future.**
